### TEN MISUNDERSTOOD BASKETBALL RULES

1. When counting 3 seconds in the key, (5 sec. "D" & "C" divisions.) the count starts over each time there is a shot, even if the ball does NOT touch the rim of the hoop.
2. Kicking the ball must be intentional, and it must be with any part of the leg or foot
3. The top, sides, and bottom of the backboard are inbounds & legal, only the back is out. The ball may not pass over the backboard. (A made goal will not count if the shot is made from behind the hoop.)
4. The hand is part of the ball.
5. The ball may be passed into the backcourt on any throw-in.
6. A defensive player has the right to put their arms straight up and may jump straight up (principal of verticality) provided they have established position. Usually the player feels they are straight up but their arms are extended into the shooter's space.
7. The court boundaries are inside the lines. The inbounder may step on but not over the line.
8. A passed or shot ball must be released before the pivot foot returns to the floor.
9. The shooting motion begins with the movement that precedes the actual release of the ball, which is normally when the player starts to pick up their dribble.
10. Players are placed on teams by their evaluation score by a blind draft; coaches do not select individual players.
